COMMODORE'S WELCOME

It is with great pleasure as your Commodore to welcome all our members to the 2023/2024, 78th Summer Sailing Season.

South of Perth Yacht Club is uniquely settled on the Derbal Yaragan (Swan River) and at the mouth the Djarlgarro Beeliar (Canning River) estuary which provides the Club protection from the elements, some of the best views of the City of Perth and allows us to offer a variety of On-water activities.

An extensive calendar of sailing events and competitions has been prepared for the season that will keep you active throughout the summer months. We will offer regular sailing competitions from Wednesday afternoon racing and Twilight social sailing, Saturday afternoon Keelboat racing, Sunday afternoon Off the Beach racing, and a return of the Geraldton Ocean classic for its 53rd instalment! No matter what your interest and experience is in sailing, there are plenty of opportunities to compete and enjoy our Club and our beautiful Swan River.

In addition to the regular scheduled events the club will be hosting State, National and World Regatta's. We are particularly excited to be hosting the 'MPS Windsurfing World Championships' over the New Year period.

I would like to extend my thanks to the many organizers, volunteers, sponsors, and all those who have worked tirelessly to allow us to offer our members plenty of opportunities to participate. Your dedication and support are the wind in our sails that propels us towards success.

SoPYC has always been a hub for sailors from all walks of life, fostering a sense of community that transcends many boundaries. It's not just about the races, the trophies, or the regattas. It is about the friendships forged, the lessons learned, and the memories created.

As we embark upon this new season, let us remember the values that define us as sailors. The spirit of sportsmanship, fair play, and respect for one another and for the environment around us are principles that we should hold dear. Let us continue to embrace the challenges that sailing presents us with and strive to achieve our personal best while upholding the integrity of our sport and our club.

I wish everyone a successful season. Let the enjoyment and competition begin!

Fair winds and smooth sailing to you all!

12.2 After the start

a) Where a Fleet's course includes a rounding of the outer start line, the RC may shorten a course after the starting signal by flying **Flag 'S'** over the relevant Class/Division flag(s) from the Box. The marks prefixed * on the course sheets shall be omitted. This changes RRS 32.

b) The RC may shorten the course in accordance with RRS 32.2 - A RC vessel will fly **Flag 'S'**, the relevant division or class flag(s) and the **Blue Finish Line Flag**.

13. THE FINISH

The Finish Line will be between a staff displaying a blue flag from the Box finish line and the outermost of the two yellow pyramid buoys. The inner yellow buoy will mark the extent but not necessarily the position of the line.

14. PENALTY SYSTEM

14.1 RRS 44.1 is changed so that the Two-Turns Penalty is replaced by the One-Turn Penalty.

14.2 Appendix T – Arbitration shall apply.

14.3 **[DP]** Discretionary Penalty – the penalty for a breach of this rule may, at the discretion of the Protest Committee, be less than disqualification.

14.4 **[NP]** Breaches of the SI's marked [NP] will not be grounds for protest by a boat. This changes RRS 60.1(a).

14.5 **[SCP]** Scoring Penalty – for some specific breaches of the rules, the RC may apply a scoring penalty [SCP] without a hearing. The RC may still protest a boat when they consider the SCP inappropriate. The scoring penalty is 2 points. This changes RRS 63.1 & A5.

15 TIME LIMIT

15.1 The Race Time Limit is 1730.

15.2 If no boat has finished within the time limit, the race will be abandoned.

16 PROTEST HEARING REQUESTS

16.1 The protest time limit is one hour after the last boat finishes.

16.2 Protest hearing request forms are available online and from OWG.

SAFE BOATING POLICY

South of Perth Yacht Club encourages safe boating practices among its members. Boat owners are required at all times to comply with the regulations and conditions of the Department of Transport, as set out in the Marine Safety Rules and Regulations, together with any related statutory requirements.

All participants in racing competition conducted by the Race Committee of SoPYC are to comply with the Racing Rules of Sailing (RRS) as well as the AS Special Regulations set out in the 'Blue Book', together with the Notice of Race and Sailing Instructions issued for each event.

The attention of sailors is drawn to this Safety Section segment of the 'Red Book' and to the requirement to complete an AS Equipment Audit Form when nominating for each sailing season.

All participants in racing and cruising events conducted by SoPYC are directed to Section 1, 1.01.1 of the AS Special Regulations:

"The purpose of these Special Regulations is to establish uniform minimum equipment, accommodation and training standards for racing boats and as a guide for cruising boats."

and 1.02 1:

"The safety of a boat and her crew is the sole and inescapable responsibility of the person in charge who shall do their best to ensure that the boat is fully found, thoroughly seaworthy and manned by experienced crew who have undergone appropriate training and are physically fit to face bad weather. He must be satisfied as to the soundness of hull, spars, rigging, sails and all gear. He shall ensure that all safety equipment is properly maintained and stowed and that the crew know where it is kept and how it is used. Attention is drawn to 2.04 that specifies the crew experience required for some races. He shall also nominate a person to take over the responsibilities of the person in charge in the event of his incapacitation."

BOAT EMERGENCY RESPONSE PLAN

South of Perth Yacht Club's Emergency Response Plan (ERP) provides a systematic approach to responding to an incident occurring during an event conducted by the Club.

Emergency Response

SoPYC is not equipped to provide extensive emergency response.

WA Water Police (or AusSAR depending on the incident location) will coordinate emergency response for boats requiring external medical assistance when there is grave or imminent danger to the safety of boat or crew.

Pre-Event Preparation by the Skipper and Crew

- Ensure that all required safety equipment is on board and in good working condition.
- Have sufficient crew, appropriately experienced, able to cope with the conditions likely to be experienced.
- Brief the crew on emergency response in the case of an incident including locations of safety equipment, their emergency roles and procedures to be followed.
- Ensure the crew is familiar with the boat's Man Overboard (MOB) procedures. SoPYC recommends that the procedure is practiced before and during the sailing season.
- Have crew on board with a Senior First Aid Certificate (recommended for all events).
- Have crew on board with a Marine Radio Operators Certificate of Proficiency.
- Check event entry rules and be aware of any special safety requirements.

Notification of Incident

When a boat needs emergency assistance, it should use the standard marine emergency call procedures 000 or 112 – including PAN PAN or MAY DAY when required.

- **CONTACT CLUB** Use when assistance is required but an emergency has not yet arisen. Call the Emergency Response numbers.

Call "South of Perth Race Control"
VHF Ch. 69 Mobile 0412 704 945

Sailing Administrator General Manager
0412 745 844 **0422 418 143**

- **PAN PAN** Use when an urgent safety message concerning safety of the boat or person is required but a MAY DAY call is not fully justified.
- **MAY DAY** Use only when a boat or person is in grave or imminent danger and requires immediate assistance.

- (a) Refer to the Advisory Appendix F of Australian Sailing Special Regulations Part 1.
- (b) Be aware of the heavy load a sea places on deck fittings.
- (c) Have you considered "heaving-to" (jib aback, main sheeted in tight and rudder steering to windward)?

10. Sea Sickness

- (a) Loss of fluids induces dehydration, encourage water intake in sips.
- (b) Secure and position person in lowest motion part of the vessel (usually the stern), face in the wind, with sight of horizon.
- (c) Avoid alcohol and greasy foods before voyage, consider heaving-to in serious cases.

11. Capsize and/or Sinking

- (a) Is anyone injured?

SKIPPER'S ON-WATER EMERGENCY RESPONSE CHECKLIST

- (b) Use all available means to notify SoPYC Race Control, another vessel or other responsible persons of the situation.
- (c) Stay with the vessel (unless it sinks out of sight).
- (d) Right the vessel if possible.
- (e) Do everything possible to conserve core body heat.

12. Grounding

- (a) Assess damage and potential danger.
- (b) Unless taking on excessive water, make every effort to refloat the vessel before requesting outside assistance.
- (c) The decision to render assistance is at the discretion of those coming to your aid.

13. Collision resulting in Severe Damage

- (a) If the vessel is disabled she should immediately issue a PAN PAN call on VHF Ch. 16 or phone SoPYC Race Control.

14. Toxic Spills

- (a) Contact the Department of Transport Oil Pollution Reporting section listed in the Emergency Contacts.

15. Fire onboard

- (a) Most important consideration is human life, the boat is secondary.
- (b) Prevention is preferable to fire fighting.
- (c) Correct installation and good house-keeping, regular maintenance and fire prevention is necessary.
- (d) If possible, make a PAN PAN call.
- (e) Was the use and location of a fire blanket and/or extinguisher covered in the safety equipment briefing?

MAN OVERBOARD PROCEDURE

Extract taken from the Australian Sailing Special Regulations
- Section 8 - Advisory Appendices - Advisory Appendix D to Part 1

MAN OVERBOARD - QUICK STOP AND THE LIFE SLING (OR SEATTLE SLING)

When a crew member goes over the side recovery time is of the essence. The hallmark of this method is the immediate reduction of boat speed by turning to windward and then manoeuvring slowly, remaining near the victim. In most cases, this is better than reaching off, then gybing or tacking and returning on a reciprocal course.

QUICK STOP METHOD

1. Shout 'man overboard' and detail a crew member to spot and point to the victim's position in the water. The spotter should not take his eyes off the victim (see Figure 1).
2. Provide immediate flotation. Throw buoyant objects such as cockpit cushions, life rings and so on. These objects may not only come to the aid of the victim, but will litter the water where he went overboard and help your spotter to keep him in view. Deployment of the pole and flag (dan buoy) requires too much time. The pole is saved to put on top of the victim in case the initial manoeuvre is unsuccessful.
3. Bring boat head-to-wind and beyond (see Figure 1)
4. Allow headsail to back and further slow the boat.
5. Keep turning with headsail backed until wind is abaft the beam.
6. Head on beam-to-broad reach course for two or three lengths then go nearly dead downwind.
7. Drop the headsail while keeping the mainsail centred (or nearly so). The jib sheets are not slacked, even during the dousing manoeuvre, to keep them inside the lifelines.
8. Hold the downward course until victim is abaft the beam.
9. Gybe.
10. Approach the victim on a course of approximately 45 degrees to 60 degrees off the wind.
11. Establish contact with the victim with heaving line or other device. The Naval Academy uses a "throwing sock" containing 25 metres of light floating line and a bag that can be thrown into the wind because the line is kept inside the bag and trails out as it sails to the victim.
12. Effect recovery over the windward side.

Quick Stop Under Spinnaker

The same procedure is used to accommodate a spinnaker. Follow the preceding instructions. As the boat comes head-to-wind and the pole is eased to the head stay, the spinnaker halyard is lowered and the sail is gathered on the fore deck. The turn is continued through the tack and the approach phase commences
